## WORK EXPERIENCE

### **NASA - National Aeronautics and Space Administration** April 2016 to July 2025

**Subcontracted under COLSA** November 2024 to July 2025

**Subcontracted under DavisDSI** May 2018 to October 2024

**Subcontracted under Tek5** July 2016 to April 2018

**Subcontracted under TekSystems** April 2016 to June 2016

ColdFusion Application Administrator/Developer

*Developed and maintained ColdFusion applications. Administered ColdFusion applications in a RedHat Linux environment across multiple versions of RHEL, using both SVN and Git as code revision repositories. Migrated applications from Adobe CFML to Lucee CFML as part of the containerization effort to run under OpenShift, including refactoring of the applications to run under Docker/Kubernetes standards by externalizing the app's environment configuration.*

QA UFT Automation Scripter

*Created and modified MicroFocus UFT Automation scripts for system checkouts. Processed scripts to check for service status after bi-monthly patching maintenance windows for nearly 100 Agency wide applications. Assisted in the ongoing effort to migrate from MicroFocus UFT to the TOSCA Automation system, as well as troubleshooting issues when either experienced problems reporting their results to the qTest Reporting Application.*

ICAM - EVAMS/Splan Application Administrator

*Deployed and maintained Splan application servers that power the Enterprise Visitor Access Management System (EVAMS) using Apache and Tomcat across multiple Windows Server environments (Development, UAT, Production). Assisted in troubleshooting communications issues between the Splan application and the credential scanner and thermal printers required for secure visitor badging procedures.*

### **Curse Gaming, Inc.** May 2014 to September 2015

Front End Web Developer

*Developed and maintained SCSS/Javascript for improving UX of CurseForge sites including wildstar.curseforge.com and minecraft.curseforge.com*

### **Best Buy Secondary Markets** December 2009 to April 2014

ColdFusion Web Application Developer

*Developed and maintain several web applications for Best Buy including their In Store Trade-in and Cowboom.com*

### **IDG Entertainment/GamePro** September 2007 to August 2009

ColdFusion Web Application Developer

*Developed and maintained GamePro's community applications including the blogs, forums, and BlogFaction Blogging Engine*

### **Rooms To Go Furniture** August 2002 to November 2006

ColdFusion Intranet Developer

*Developed internal applications and utilities using ColdFusion and Flash*

**Purchase College, State University of New York** April 2001 to January 2002

Tier 2 Technical Support Help Desk Manager

*Managed the in-house repair and service call Help Desk staff supporting approximately 1500 students, staff and faculty*

#### **EDUCATION**

**Art Institute of California – Orange County**

Studied Game Art & Design - course not completed

*Studied the creation of Tabletop and Video Games with a focus on Game Mechanics and Character Design.*
